## A TURNING-POINT IN MY LIFE

Simon Richardson is a 25 year-old guy from L.A. He used to be very sad, introverted young man who had a bit of a complex about his face, after he had a car accident that deformed it. Fortunately, his life has recently changed, for good. Everything started when he bought a lottery ticket at a small store near his house. He purchased a few products, and when he was about to pay, the storekeeper told him he didn't have change, so he had to buy a lottery ticket. A week later, he became rich. He couldn't believe it!

Six months have passed since then. Simon has visited a private hospital where he has been practicing a facial reconstruction. He has exercised since the surgery, and has lost 50 pounds. This Californian has also followed a friend's advice: he has bought new clothes and has had his hair cut. Moreover, he has changed his diet: he only eats vegetables, fruit, and fish. He doesn't eat meat, eggs, or pasta. He has given up smoking, and hasn't drunk alcohol in a very long time.

This lucky American has invested his money in property in Hollywood, Wall Street, and several restaurants and companies. He also left the firm he worked for 5 years as a lawyer, and has devoted his time to work for charities, such as "Greenpeace"

## VIII. CHOOSE TRUE (T) OR FALSE (F) FOR EACH STATEMENT.

1. Simon's life has changed.
2. He bought the ticket because the storekeeper didn't have change.
3. Since he won, Simon has changed his physical appearance.
4. He doesn't eat meat, eggs or pasta.
5. He hasn't given up smoking.
6. He has quit his job as an accountant.
