Reading:

William Shakespeare:

(1564-1616).

➡ He was a famous English writer. Romeo and Juliet was his most famous play. It was set in Verona, but Shakespeare never went to Italy. In fact, he probably never left England. Shakespeare was from Stratford-upon-Avon, in England.

You can still visit the house where he was born. He lived in Stratford-upon-Avon with his wife, Anne Hathaway, and his children, Susana, Judith, and Hamnet.

Shakespeare was an actor as well as a writer. He appeared in his own plays at The Globe and other London theaters. He also performed at the Royal Palaces, in front of Queen Elizabeth. He wrote nearly forty plays, as well as sonnets and other poems. Going to the theater was popular in Shakespeare's time. It wasn't just for the rich. You could go to a play at The Globe for just one penny. You didn't have a seat, but you could stand very close to the stage, so you had a very good view of the action.

The audience expected to hear music, too, as part of the play at The Globe, the musicians played in a gallery above the stage. Women didn't appear onstage in Shakespeare's time. So boys played the women's parts. Theaters were lively places. The audience didn't keep quiet during the performance. Unfortunately, the old Globe Theater burned down a long time ago. But there is a new Globe theater on the south bank of the River Thames. It looks exactly like the old one. You can go and see Shakespeare's plays there now.
